

**FINISH PAYING FOR BIG STORM DRAIN IN EAST**

Forty-sixth Street Job Completed and Paid for—Concentrate on Sixteenth Avenue Project.

The sum of \$2,444.17 was allowed by the Rock Island city commissioners yesterday afternoon to the city of Moline as this city's share of the last payment on the Forty-sixth street storm drain, which was completed recently.

The total cost for the completion of the last stretch of the drain, which was from a point west of the railroad tracks to Fifth avenue, was \$29,411.94, and the total cost for constructing the entire drain from the river to Ninth avenue was approximately \$60,000.

The city commissioners welcomed the opportunity presented yesterday afternoon to grant payment of the last installment on the work, which has proved a boon to the east end of the city.

Overflows of the district during hard rains in the past will not be repeated, according to engineers, and property in the district will enhance in value due to the improvement, it was said.

The job was started in 1917, but it was necessary to stop the work during the war on account of scarcity of materials and the lack of sufficient funds. The bond issue accepted by the voters Aug. 19, 1919, made it possible for this city to pay out on the work, \$15,000 of the \$75,000 bond issue being placed at the command of the city officials to complete the job in conjunction with Moline, which city paid half on the total bill, as the drain is laid in the street forming the boundary line between the two municipalities.

**West End Drain Next.**

With the Forty-sixth street drain completed, a considerable amount of worry is taken off the shoulders of the city commission, which can now concentrate all efforts on completing the Sixteenth avenue storm drain for which work \$60,000 was made available through the bond issue last summer.

This work was also begun in 1917 and was likewise held up on account of scarcity of materials and lack of funds after it had been completed from just west of the railroad tracks up the avenue to Third street.

Since the acceptance of the bond issue by the voters, prices have continued to soar until it is now impossible to complete the drain upon the amount of money available. Contracts advertised for last fall brought forth bids that made it apparent that to complete the drain an outlay of money would be required that would exceed the amount at hand from \$10,000 to \$15,000 upon conservative estimates on the amount of rock that might have to be removed. The situation was so much in doubt that the city commissioners did not feel justified to enter into the contract for fear that even this cost might be increased, and decision was reached to further withhold taking up the work in hope that prices would drop. However, prices have continued to soar until the situation has become one of serious worry to the city officials, especially as property holders in the district are clamoring for the improvement.

The drain is planned to be completed from its present ending on Third street to Fifth street, north to Fifteenth avenue, east to Ninth street, north to Twelfth avenue and east to Eleventh street.

**GOAL DUST LODGED IN MINER'S LUNGS**

Tells how his cough was conquered and health restored.

"In November, 1916, I was working in a coal mine and the doctors said the coal dust had settled in my lungs. I couldn't lie down on my right side, coughed so I couldn't sleep and had constant pain in my right lung and under my shoulder blades. I coughed so hard the blood would spurt out of my nose. Finally the doctors had me change climate and live outdoors but didn't improve.

"Then I came home and started on Milk's Emulsion. Thank God, I did, as it did me a lot of good right from the start, loosening up the coal dust in my right lung. In a few weeks my lungs were free. I could sleep like a baby, had an excellent appetite and my cough left me entirely. I gained back 30 pounds in weight and went back to work in the mine completely restored. I bought H. Bunn, 6th Ave. & No. 12th St., Terre Haute, Ind.

Thousands of victims of dust-filled air, develop the same trouble that Mr. Bunn had. Milk's Emulsion costs nothing to try, so why not at least try it?  
Milk's Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. It helps build flesh and strength, and is a powerful aid in revivifying and repairing the effects of wasting diseases.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream.  
No matter how severe your case, you are urged to try Milk's Emulsion under this guarantee—Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 60c and \$1.00 per bottle. The Milk's Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere.
